

POSSIBILITIES FOR AUTISM

Feel Better + Live Better

APRIL 7, 2015 BY BETH SECOSKY

Dr. Jeff Bradstreet Coming to Charlotte/Dr. Corbier Open House

I am thrilled to share that Dr. Jeff Bradstreet will be speaking at the grand opening of Dr. Jean-Ronel Corbier's **Brain Restoration Clinic** in Charlotte. Dr. Bradstreet is a renowned lecturer and researcher who specializes in cutting-edge therapies for autism.

The grand opening for Dr. Corbier's Brain Restoration Clinic will be **Saturday April 18th from 2:00 – 6:00 pm**. Dr. Bradstreet will be speaking around 4:00 pm.

Join them for a day full of **fun!!** Enjoy a health and wellness fair, tours, healthy food,

music, activities for kids, local vendors, educational talks, and their wonderful staff!!

Here's a little about Dr. Corbier:

Dr. Corbier is a Board Certified Pediatric Neurologist. While he is a generalist – treating all childhood neurological conditions – he has a special interest in working with children with Autism and related spectrum disorders and PANDAS. He is presently conducting research in the area of speech-language delay. He is also dedicated to the study of nutrition and its role in brain related disorders.

Dr. Corbier has been recognized for his work both within the greater Charlotte community as well as nationally. He has been awarded the 'Patient Choice Award – Favorite Physicians in NC' for 5 consecutive years and the 'Compassionate Doctor Award' for 4 consecutive years. He has shared his work on TV, radio, medical conferences, and lectures/workshops. He has authored several books and articles, including topics on autism, nutritional approaches to treatment, as well as his 'Restoration Model'.

Here's what I know personally about Dr. Corbier:

Dr. Corbier is known for his gentle, kind bedside manner and his team approach to healing. I've shadowed him in his office and seen first-hand the kind of empathetic and supportive care he provides for his patients. He has also surrounded himself with a team of specialists who support his patients. His team includes a nutritionist, an independent compounding pharmacist, a neuromodulation specialist, a behavior

specialist, and a health coach. I have the privilege of serving as the health coach.

Those of you who live in Raleigh may wonder why you haven't heard of Dr. Corbier yet. When I started working with Dr. Corbier a little over a year ago, there was no promotion of his practice because it was full, and he was unable to take new patients. In fact, he filled his practice within a year of opening it which is pretty rare. Now that he's moving into a larger office and expanding his staff, he will be able to take on new patients again.

Here are the details for Dr. Corbier's open house:

What: Brain Restoration Clinic Open House

Special Guest: Dr. Jeff Bradstreet

Who: Patients, prospective patients, children, friends and family

When: Saturday, April 18th from 2:00 pm to 6:00 pm

Where: 1040 Edgewater Corporate Center, Indian Land, SC (a suburb of Charlotte)

I hope to see you there!

Beth
